

7. Create a simple cloud software application for Students Attendance System using any Cloud Service Provider to demonstrate SaaS include the necessary fields such as name of the students, course, present, Absent, course attendance, OD request, grade, attendance percentage, etc

Step 1: Create the form of student details

The screenshot shows a web browser window with the URL `creatorapp.zoho.in/abhinavreddyt1688.sse_saveetha/student-attendance-system/#Form:Student_details`. The application is titled "Student attendance system" and has a sidebar menu with options: "Student Details", "All Student Details", "Attendances", and "OD". The main form is titled "Student details" and contains the following fields:

- Name: Two input fields for "First Name" and "Last Name".
- Reg Number: A single input field with a placeholder "#####".
- Phone number: A field with a country code dropdown set to "+91" and a number input field containing "81234 56789".
- Course Name: A single input field with a placeholder "First Name".
- Sub code: A single input field with a placeholder "#####".

At the bottom of the form are "Submit" and "Reset" buttons. The browser's taskbar at the bottom shows the date and time as 14:43 on 14-03-2024.

Step 2: Create the attendance form for the course details for the od request

The screenshot shows the same web browser window, but the URL is `creatorapp.zoho.in/abhinavreddyt1688.sse_saveetha/student-attendance-system/#Form:Attendance`. The sidebar menu is the same, but the "Attendance" option is now selected. The main form is titled "Attendance" and contains the following fields:

- Course attendance: A single input field with a placeholder "#####".
- present classes: A single input field with a placeholder "#####".
- Absent classes: A single input field with a placeholder "#####".

At the bottom of the form are "Submit" and "Reset" buttons. The browser's taskbar at the bottom shows the date and time as 14:46 on 14-03-2024.

Step 3: Create the form for od request
